Acquire the Stock of WICOR Inc.

9402-YO-101

**NOTICE OF PROCEEDING,  
INVESTIGATION, ASSESSMENT OF COSTS  
AND PREHEARING CONFERENCE**

**Prehearing Conference Date: September 8, 1999 – 1:30 p.m.**

**Conference Location: Public Service Commission, 610 North Whitney Way,  
Madison, WI**

**THIS IS A PROCEEDING TO** consider the application of Wisconsin Energy Corporation (WEC) to acquire 100 percent of the outstanding common stock of WICOR, Inc. (WICOR).

Because WICOR is a holding company, as defined by Wis. Stat. § 196.795(1)(h)1.a., the proposed transaction is governed by Wis. Stat. § 196.795(3), which provides in relevant part:

No person may take, hold or acquire, directly or indirectly, more than 10% of the outstanding voting securities of a holding company, with the unconditional power to vote those securities, unless the commission has determined, after investigation and an opportunity for hearing, that the taking, holding or acquiring is in the best interests of utility consumers, investors and the public.

The application seeks approval of the transaction under Wis. Stat. § 196.795(3). In addition to approval, applicant WEC seeks a determination from the Commission authorizing the recovery of an acquisition premium associated with their proposed acquisition.

The application states that the transaction will be structured as a merger of WICOR and a special purpose acquisition subsidiary of WEC. The transaction may involve cash and stock or just cash. If the transaction involves both cash and stock, WICOR will be merged into the acquisition subsidiary and the name of the subsidiary will be changed to WICOR. If the transaction involves only cash, the acquisition subsidiary will be merged into WICOR. In either event, WICOR (or its successor) will become a wholly-owned subsidiary of WEC and will in turn own Wisconsin Gas Company (WGC) and the other WICOR subsidiaries.

WEC is a holding company with a number of wholly-owned subsidiaries. In fiscal 1998, WEC had operating revenues of approximately \$2 billion, net income of approximately \$188 million, and employed approximately 5,400 people, including 690 in its gas operations.

WEC's Wisconsin Electric Power Company (WEPCO) subsidiary is a public utility. In addition to its steam and electric energy businesses, WEPCO also purchases and transports natural gas to Wisconsin through pipeline companies and distributes and sells natural gas in a territory of approximately 3,800 square miles in the area west and south of Milwaukee, an area along the Michigan border, the Appleton area, and the Prairie du Chien area. The gas service territory has an estimated population of approximately 1.2 million. WEPCO's gas assets include approximately 7,900 miles of gas mains.

WICOR is a holding company that was formed in 1980. It owns and operates subsidiaries in two industries: energy services and pump manufacturing. WICOR had 1998 operating revenues of \$944 million, of which \$481 million was attributable to its energy subsidiaries and \$463 million to manufacturing. WICOR's net income in 1998 was \$45.5 million, with 48 percent of that from energy and 52 percent from manufacturing.

WICOR's principal energy subsidiary is WGC, a regulated natural gas utility which purchases and transports natural gas to Wisconsin through pipeline companies and distributes and sells that gas to approximately 529,000 customers in Wisconsin. WGC owns approximately 9,100 miles of gas mains.

Copies of the WEC's application can be obtained by calling Roman Draba, Manager, State Regulatory Affairs, WEPCO, at (414) 221-2285. Any interested parties to this docket can begin discovery immediately by submitting such requests to Mr. Draba at WEPCO.
